Date: 6-25-2013

Name(s): Efrin Hinojosa

General Manager: Daryl Dauer

Company: Brazos M&E

Efrin's crew was told to enter an excavation that was not considered a confined space. Efrin questioned the decision of this area not being a confined space. He involved the customers safety reps along with his BME safety reps before starting work. After meeting with all safety reps, the area was deemed safe. Efrin's concern for safety was evident and appreciated.
