

The Infinity Group Management Recognition Program

Pictured Above: Ricky Ramos (Foreman) and Randal Davis

Date: 5/1/2013

Employee Name(s): Randal Davis

Superintendent: Eric O'Neal

Company: Infinity Maintenance Services, LP

Randal was asked to move a crane and drive from one location to another with the jib erected. He knew from his experiences that it was acceptable for certain models of cranes and for others it was not. He was given permission by management and the vendor, verbally. Randal was not comfortable with performing the task unless he had something in writing to confirm that the manufacturer would allow it. His persistence paid off, but more importantly, he was not willing to compromise his integrity without feeling comfortable that it was safe for him and others working around him to move the crane until he had a response in writing. Thanks Randal.

Bob Ford – Infinity Maintenance Services, LP, Safety Director
